Easy to understand and very comprehensive. I find that it has all the necessary information to study for the GED test.

Fantastic and comprehensive approach to the study of GED in Spanish. I find particularly helpful the arrangement of subjects such as World History, American history, Government, Study of the Constitution, Study of Spanish grammar and poetry plus Writing an Essay in Spanish are incredibly well organized and simple to follow. The exercises are very helpful and succinct. This is a great tool

to learn GED en Espanol.

Just what my client needed to prepare for the exam... happy to report she PASSED! what an accomplishment, now she can enroll in the university which is her dream, an endeavor she will fulfill now that she's on her way to become a college student at Rutger University. :-)

Although the order was not for me, my father-in-law was very pleased (It was for him, by the way.). We received it really well and on time with no problems. Thank you so much, on behalf of my father-in-law and I.

The GED test is about to be changed significantly, and new manuals will be out probably in September 2013 (soon). This book is comprehensive but has a lot of errors and may not be fully relevant to the test, the existing one that is. En resumen, no lo compres, espera una version nueva, quizas de otra marca/editor! Tambien considera la ayuda de un profesor/tutor de ingles, como yo. Contactame en: rucompat arroba yahoo punto com.

This book is an excelent tool for any teacher or student that need to improve, review or brush up on some of the grammar rules or mechanics of punctuations. It's a good buy.
