If you, a close family member, or close friend has been diagnosed with lung cancer, you probably have 1000 questions floating around in your head; like how this illness will be treated, how you will feel, how this will affect your family and your work, and what should you do next. Any cancer diagnosis has an impact on many aspects of life. This is a fact for everyone. The goal of this book is to provide you with knowledge about your diagnosis and to assist in clarifying procedures, alleviate fears, and optimize your treatment. This book has been written in such a way that it will provide rapid assistance to you or your loved ones when searching for answers to common questions. It provides descriptions of common diagnostic tests and symptoms of the diagnosis. In addition, this text describes common surgical, chemotherapy, and radiation treatments.
