From Round Table To Grail Castle: Twelve Studies In Arthurian And Grail Literature In The Light Of Anthroposophy

Synopsis

There exist many different versions both of the stories of King Arthur and his Knights of the Round Table, and of the High Adventure of the Holy Grail. Frequently, they are treated as simply interesting legends. Isabel Wyatt bases her approach on the research of Rudolf Steiner. In this fascinating book, she shows how each seemingly insignificant detail of the various stories is, in fact, the earthly reflection of a spiritual reality.

Customer Reviews

There is something wonderfully and strangely powerful about this book. There is a depth to the stories that it shares that is not found in many of the newer texts about the Arthurian Cycles.
